To Whom it May Concern:

As an educator at Sultan High School, it is my absolute pleasure to recommend Jenna Fleming for the Local Scholarships. I have had the joy of teaching Jenna twice in her high school career, once in Algebra II as a sophomore and again in Statistics her senior year. Jenna is the epitome of an ideal student, she works hard, is organized, and dedicated to learning. On top of being an excellent student, Jenna is a wonderful person, kind and willing to help others.

In my classroom, Jenna has exemplified an active and dedicated learner. She pays attention, asks questions when she has them, produces exceptional work, has me check her accuracy, is an effective collaborator, and does not give up when the content is challenging. In fact, when she was in my Algebra II class her sophomore year, I recognized Jenna with an Infinite Student Award to acknowledge her exceptional character, academic behaviors, and hard work. I know these qualities extend beyond my classroom given that Jenna has been enrolled in health science classes for four years; winning fourth, second, and fifth placings at HOSA (Health Occupations Students of America) State competitions; and an impressive fifth place at HOSA Nationals; not to mention maintaining a GPA above a 3.8 with highly rigorous classes.

Jenna is planning on exercising all her knowledge from her Sports Med classes, her well honed academic behaviors, and her passion for health science to enter healthcare as a pediatric nurse; eventually becoming a labor and delivery nurse. Jenna has a well thought out plan to achieve her goals and has the organization and drive to see it through successfully. I have no doubt that Jenna is going to thrive in her education and field of passion to achieve her goals.

Overall, Jenna is an exemplary student and person who has a positive effect on the people around her. She is highly regarded at SHS by her peers, teachers, and administrators alike. While she will be missed, I am certain that Jenna will accomplish her post high school goals, which is why I urge you to consider Jenna Fleming for the Local Scholarships. She has my highest recommendation.

Sincerely,

Maurissa Lynch
