

Dear Kamdyn,

Congratulations!

It is a pleasure to offer you admission to the University of Oregon. I know you will make invaluable contributions to our campus community, and I am excited that you see the UO as a place where you can continue to pursue your passions.

Also, in recognition of your achievements, we are awarding you a Summit Scholarship. This **\$50,000 award** (\$12,500 per year) reflects all the effort you've put into your academic studies and will help push you even further in accomplishing your goals inside and outside of the UO.

The UO is a community that values your experiences while encouraging you to learn from the diverse perspectives and backgrounds of others. We want you to take what you learn here and use it to change the world. This distinctive college experience is defined by a culture of curiosity, breadth of opportunities offered inside and outside the classroom, beautiful surroundings in the Pacific Northwest, and legendary school spirit.

Many factors go into the college decision process, and we want you to have all the information as you decide whether the UO is right for you. You will receive a print version of this letter as well as an admissions packet. Please, follow all guidelines and deadlines relevant to you in your admissions packet.

For more information, visit our [webpage for admitted students](#). Take time to explore all the UO has to offer and feel free to contact us with any questions; our admissions staff is always happy to help.

Also, please note that our decision is based on your [self-reported academic information](#) if you provided this information to us. To complete your admission, you must send us your final, official transcripts from all schools you attended before you can enroll at the UO.

Congratulations again on all your accomplishments. This is an exciting time for you and the people who have supported you. Share the good news!

Best Regards,
